

Assignment A2 · Control Flow Challenge

Module SC101 · covers Lesson 2 · Social Coding SA

What to do

Solve all FIVE problems from the Lesson 2 worksheet in one file called `control_flow.py`:

1. Pass/Fail/Distinction from an entered mark. 2. Countdown 10→1 then "Lift off!". 3. Sum of even numbers 2–100 (prove it prints 2550). 4. Fizz/Buzz/FizzBuzz for 1–30. 5. Guess-my-number with attempt counting.

Label each problem with a comment (`# Problem 3`) so marking is easy.

Marks (100)

Component	Marks
Problems 1–2	25
Problem 3 with correct total	20
Problem 4 fully correct	25
Problem 5 with attempt count	30

How to submit

Upload `control_flow.py` in the LMS before the due date.

Dates: see the assignment in the LMS. The % (remainder) operator is your friend.
